

A short profile of the

Babylon Group

- Babylon Garments Ltd.
- Aboni Fashions Ltd.
- Babylon Casualwear Ltd.
- Aboni Knit Wear Ltd.
- Aboni Textiles Ltd.
- Juniper Embroideries Ltd.
- Babylon Trims Ltd.
- Babylon Washing Ltd.
- Babylon Printers Ltd.
- TRENDZ (Local Retailing)
- Babylon Buying Services Ltd.
- Babylon Medical Services
- Babylon Logistics Ltd.
- Babylon Products (Softy)
- Babylon Agriscience Ltd.
- Sealand Agro Industries Ltd.
- Newgen Technology Ltd.
- Babylon Resources Ltd.

Babylon Garments Ltd. the very first concern of the Group came into operation in July 1986. Babylon launched her first garments manufacturing unit with a modest capacity of about 2,000 pieces of Shirts/Blouses per day. Today the Group owns several factories as listed below -

Babylon Garments Ltd. (Established – Year 1986)

- **Location** - Company’s own premises at 2-B/1, Darussalam Road, Mirpur, Dhaka-1216.
- **Floor Area** - About 163,000 sq. ft.
- **Capacity** : 350,000 ~ 400,000 pcs. of Men's/ Children’s formal shirts per month (woven).
- **Number of Production Lines** : 15

Aboni Textiles Ltd.

(Established - Year 2001)

- Aboni is a modern and efficient Composite Textile Project for the production of knitted fabrics.
- Located at Hemayetpur, Savar, Dhaka, at company's own premises.
- Total area about 115,527 sq. ft.
- Capacity: The knit textile project has been designed with all European best Machinery and Technical know-how. The current capacity of the project is 13.0 tons per day for Knitting, 14.0 tons per day for Dyeing & 18 tons per day for Finishing. This project is having both tubular and with open-width facility.

A modern and efficient composite knit textile industry equipped with hi-tech European Knitting, Dyeing, and Finishing Machinery. Aboni offers various types of high quality tubular fabrics including interlock, single jersey, pique polo, lacoste, rib, lycra rib, flat knit collar / cuff and many other varieties of structured fabrics and fashionable garments.

Aboni now also offers stentering, compacting, and calendaring of open width fabrics and is equipped with 100% Cotton, T/C, CVC, Polyester & Spandex mixed fabric finishing facilities.

Product Range

<u>Sl#</u>	<u>Design</u>	<u>GSM</u>
a)	Single Jersey	135-230
b)	Pique (Single & Double)	160-280

- **SELF – OWNED GAS FIRED GENERATOR TO ENSURE UNINTERRUPTED PRODUCTION.**

Special Features:

1. Technology:

- 2.1 Well-equipped Laboratory with necessary testing facilities including Acid & Alkali Perspiration.
- 2.2 Latest Color- Matching System (Data-Color with Spectro flash SF-600+^{CT})
- 2.3 Dyeing machines are controlled using Central Control System “Sedo master”, the most modern technology in exhaust dyeing.
- 2.4 Ahiba Lab Dyeing M/C

2. Product Capabilities :

- 2.1 Elastane Fabric
- 2.2 Easy Care Finish
- 2.3 Water Repellent Finish
- 2.4 Anti-Bacterial Finish etc.

Juniper Embroideries Ltd. (Established - Year 1989)

- **Location** - company’s own premises at Kandiboilarpur, Horindhara, Hemayetpur, Savar, Dhaka.
- **Floor Area:** About 7875 Sq. ft.
- **Capacity:** 400,000 Pcs per month (two shifts).

EMBROIDERY MACHINERY LIST

Sl#	Color Description	Qty	Brand	Origin
01	9 COLOUR	03 sets	BARUDAN	JAPAN
02	9 COLOUR	05 sets	TAJIMA	JAPAN
03	6 COLOUR WITH SEQUENCE	02 sets	MAYA	CHINA
04	9 COLOUR (SAMPLE MACHINE)	01 set	HAINA	CHINA
Total No. of Machines =		11 sets		

Most of the machines have 20 heads, 15 heads & 12 heads each. All these are capable of performing embroideries on both light and medium weight materials.

Babylon Washing Ltd. (Established - Year 2003)

- **Location** –Plot#169-171-Hemayetpur, Savar, Dhaka, at company’s own premises.

Babylon Buying Services Ltd. - (Established - Year 2003)

- Babylon Buying Services Ltd. (BBSL) is A one-stop solution of your all apparel needs!

Garments manufacturing is our business, Quality is our Brand, JIT is our Core Management and Price is our Strength. By keeping these in our mind we have started our journey of Buying unit in the year 2003, though we are at garments manufacturing business since 1986.

With almost 31 years' experience in dealing with overseas buyers we are fully aware of the needs of the international garments market. Our professional team continuously follows the fashion trends of all over the world, and has the ability to anticipate and identify the products that clients want. With the necessary links and experience, we can render optimal solutions to your garment sourcing needs, right from Fabric & Material sourcing, product development, costing, right up to production planning & management, and up to the final delivery.

Our Products:

We offer top quality:

- **Woven Tops and Bottom,**
- **Knit T-shirts, Polo Shirts, Sweatshirts, Fleece Jackets,**
- **Sweaters (Jacquard – 5 GG~ 14 GG & 16 GG),**
- **Under Garments,**
- **Home Textiles**
- **Any Kinds of Jackets and.**
- **CAP**
- With all kinds of value addition like Print, Embroidery, Appliqué, Garments Washing, Garments Dyeing (Pigment Dyed), Tie & Dye, Dip Dyed, Cool Dye, Chemical Spray, Aromatic fabric, Cool max, Moisture Management so on.

With a great selection of cute designs, we do have design department and we do send our made designs on request.

Services: Quality Assurance:

To ensure the highest quality of products, we follow AQL Level 2.5 inspection method, but on special case we can follow any inspection method as per customers requirement. Our Quality Assurance team checks all the fabric/ Accessories, pre-production (size set) sample, patterns, case pack, carton quality, shipping mark, assortment, presentation etc through a set of inline, pre-final and final inspection procedure:

- Accessories Inspection
- Knitting Inspection
- Dyeing quality check
- Final Fabric Inspection.
- Testing in our Own Lab.

Factory Evaluation:

At BBSL, we take an extra step to source the most appropriate vendor for our customers. Before selection we thoroughly evaluate Factory on the basis of the following assessment:

- Factory design
- Financial performance
- Factory equipment & machinery
- Factory productivity
- Prevalent working procedures
- Factory past performance
- Technical competency
- Factory personnel competency
- Factory goodwill
- Level of professionalism
- Ethical competency
- Whether complaint with local law.

In addition, we have formulated a Factory Evaluation Form (FEF) that is filled out for every factory and then based on the physical and financial assessment includes creation of a rating grade to the factory. This rating grade can determine the quantity of Garments it can manufacture for "BBS Ltd" as well as whether it has adequate production capacity. These services can be further extended in locally reliable fabric sources, dyeing mill and printers, which ultimately promote quality of merchandise. This is an important process as no factory should be over booked, which causes delays in delivery and impacts production quality negatively.

Factory assessments are an ongoing process. BBSL is constantly investing time and effort in finding new factories, which can meet the requirements of client in terms of fashion and price.

Besides as a sister concern of Babylon Group, we have the **WRAP** certified, BSCI, **Oeko-Tex** certified and **ISO** certified Factories also.

Merchandising:

Our merchandising team is committed to complete customer satisfaction. Our merchandising department consists of highly qualified team of merchandisers whose prime aim is to provide full satisfaction to our customer starting from the fabric procurement stage to shipment and reporting the status of the order to the buyers regularly.

The services our merchandising team provides to our clients are:

- Systematic follow-up on each stage of production and execution of order on time.
- Monitoring new trends in fabric, fashion and design.
- Locating new reliable sources to meet the requirements of the customer with regard to fashion and design.
- Introducing new samples to buyers to enable them to expand their business.
- Share with the customer about the characteristics of variety of fabrics, dyes, dyeing and printing process, and their positive and negative points and caution the buyers about the pitfalls involved.
- Liaison between the customer and our factories and follow-up.
- Guiding the supplier in preparation of the range to meet the customer's requirements with regard to fashion and design and negotiation.

Our Philosophy

Our approach is simple - we refuse to compromise when it comes to quality. We set our standards high and then we aim to surpass them. We do this by investing in the continuous improvement of our products and services by building a team that is knowledgeable and dedicated to ensuring that we exceed the service needs of our customers.

Our Commitment

We are committed to reliability in all that we do. Reliable Products. Reliable Service. Reliable Relationships. We back up our commitment to reliability by having our engineers and support staff available for questions and concerns. Our continuous communication with our customers allows us to adapt and grow with their Service requirements.

Our Difference

The difference is the people. Our staff works together at every stage so that no detail is left unchecked. Working as a team, BRL is meticulous and thorough, knowledgeable and friendly, talented and innovative. Our dedication to streamlining the production process means that we can deliver quality products efficiently.

All these factories are owned by the same owners and being managed from corporate office at 2-B/1, Darussalam Road, Mirpur, Dhaka - 1216. But each of the manufacturing units has its own factory management setup to perform from sample making, cutting etc. up to packing of the finished products.

Total number of Company Units	: About 20
Total number of Sewing Machines owned by the Group	: About 4484
Total number of Employees in all the factories	: About 11,500
Total Turnover in the year 2016	: About US\$ 145 million

The Group of Companies owns 8-storied building at 2/B-1, Darussalam Road, Mirpur, Dhaka as the factory premises for two of the woven units and the corporate office. Keeping the environmental and decent labour practice issues in mind, the building has been designed in a manner that satisfies both local and international legal requirements that are necessary for responsible manufacturing.

- Each of the manufacturing units is equipped with independent QC cell.
- Every unit has its own pattern making and sample making set-up.
- * All the units use Japan / Korea origin modern garment machinery and equipment.
- * Group owns special machines to use taping and fuse arm-holes and side seams of wrinkle free shirts.
- * Uses Light Box (Light sources D65, TL84, TUNGSTEN & UV) for checking shade variation in the fabrics and separating shade lots.
- * Group has Computer Aided Design (CAD – Investronica, Spain and Echosoftware, China) system for speedy and accurate marking and pattern making.

Some special features of all apparel manufacturing units of the Group:

- ◇ Each of the factories of the Group has been specializing in specific apparel making only since inception. This Endeavour has enabled the Group to earn a lot of fame in a very short time and put it on a leading position of the trade in the field of garment making.
- ◇ The Group has now become very well known to the customers' community for its excellent workmanship in its product. The Group believes that harder task is ahead to keep it up. And "to keep it up" now is the motto and motivation behind all efforts of the Group.
- ◇ **Babylon Garments Ltd., Babylon Dresses Ltd. and Aboni Knitwear Ltd. are WRAP Certified factory.**
- ◇ All major units have separate training centers for workers and staff. All workers and staff undergo training session in a regular basis. Training programme is designed according to the need assessed for the target group.
- ◇ Group has a central research and development (R&D) cell where a 14 fourteen member team of engineers and other specialists contribute to :
 - Designing the most appropriate machine layout for the particular style.
 - Suggesting improved work-method.
 - Recommending use of special work-aids.
 - Reducing rework and re-process.
 - Raising productivity, improving efficiency and ultimately contributing to production cost reduction.

Babylon factories follow compliance requirements based on Code of Conducts of –

Ethical Trading Practice

Ethical principles apply to all facilities of Babylon Group that produce readymade garments for exporting to foreign countries.

Babylon Group recognizes that there are legal and cultural environments in which factories operate. These ethical principles set forth the basic requirements of Babylon factories in order to do business with its customers abroad.

Babylon makes ceaseless effort to promote best practices and continuous improvement of ethical issues in all its manufacturing units. For easy access to the issues, Babylon posted contents in the Notice Boards of factories in both Bangla and English.

The issues are:

Principle 1 – Laws & Regulation :

Babylon facilities operate in full compliance with the laws and regulations of the jurisdictions in which they manufacture.

Principle 2 – Employment Age :

Workers may not be younger than 18 years of age.

Principle 3 – Forced Labour :

Babylon facilities do not use involuntary or forced labour – indentured, bonded or otherwise.

Principle 4 – Wage and Benefits :

Babylon facilities compensate their employees fairly by providing compensation packages comprising wages and benefits that, at the very least, comply with legally mandated minimum standards. Each employee is provided with a clear, written accounting for each pay period. Employees are compensated for overtime according to local law.

Principle 5 – Hours of Work :

Babylon facilities ensure employees' hours worked shall not, on a regularly scheduled basis, exceed the legal limitations on regular and overtime hours in the jurisdiction in which they manufacture or 60 hours per week including overtime. Except in extraordinary business circumstances, all employees are entitled to one day off in every seven-day period.

Principle 6 – Health and Safety:

Babylon facilities provide their employees with a clean, safe and healthy work environment, designed to prevent accidents and injury to health arising out of or occurring during the course of work. All Babylon facilities comply with all applicable, legally mandated standards for workplace health and safety. All the workers and staff enjoy free medical treatment. Company doctors are available full time.

Principle 7 – Discrimination:

Babylon respects cultural differences, employment – including hiring, remuneration, benefits, advancement, termination and retirement based on ability and not on belief or any other personal characteristics. Babylon facilities do not discriminate on the basis of race, age, colour, national origin, gender, religion, sexual orientation, disability or similar factors.

Principle 8 – Harassment :

Babylon facilities treat all employees with respect and dignity. Babylon facilities do not subject employees to corporal punishment, physical, sexual, psychological or verbal harassment or abuse.

Principle 9 – Woman’s Rights :

Babylon facilities ensure women workers receive equal treatment in all aspects of their employment. Pregnancy test is not a condition of employment, and pregnancy testing – to the extent provided by Babylon facilities – will be at the option of the worker. Employees are not exposed to hazards that may endanger their reproductive health, and employees are not forced to use contraception. Fully equipped CRECHES are available for the female workers having babies.

Principle 10 – Monitoring and Compliance :

Babylon facilities maintain on site all documentation necessary to demonstrate compliance with Global Compliance Principles. Babylon and its subsidiaries undertake affirmative measures, such as announced and unannounced on-site inspections of production facilities, to monitor compliance with Global Compliance Principles. Babylon facilities allow customer’s representatives full access to production facilities, employee records and employees for confidential interviews in connection with monitoring visits. In addition Babylon facilities respond promptly to reasonable inquiries by customer representatives concerning the subjects addressed in an audit.
